**(54) PERSONAL COMPUTER
DESK AND CONNECTOR
DEVICE MOUNTED
THEREON**

(57) Abstract:

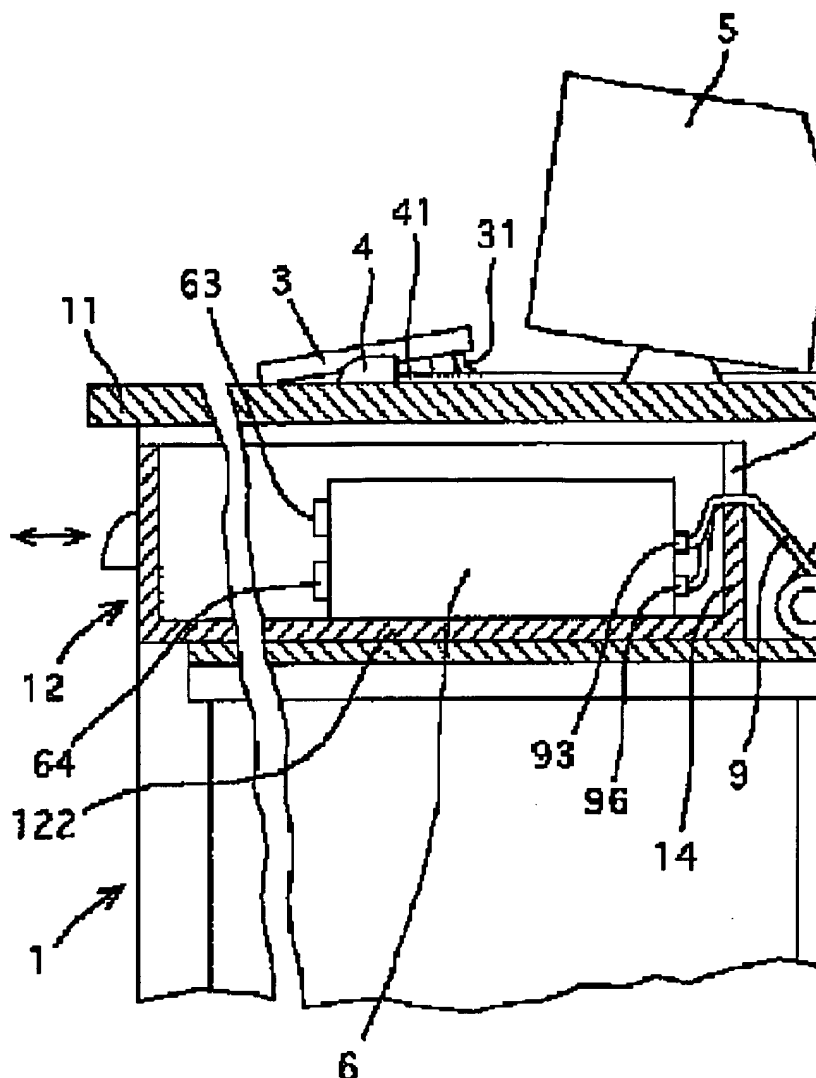

PROBLEM TO BE SOLVED: To provide a personal computer desk whose desktop can be widely used and which is superior in appearance and to provide a connector device for a personal computer.

SOLUTION: A drawer 12 provided under the top surface (desktop) of a desk 1 is formed so as to house the main body case 6 of a PC containing a CPU and a storage device. In addition, a cable deriving opening 140 opened on the back side plate 14 of the drawer 12 is formed so that an input/output cable 9 heading from the main body case 6 to input devices 3 and 4 and a display 5 can be inserted. The input/output cable 9 is connected to a connector device 7 through a desk opening 130 formed on the back
